PRODUCT INFORMATION

GLE 15 PRO S2

Our flat wall and ceiling speakers GLE 15 Pro S2 are particularly inconspicuous and flexible to use, with a depth of only nine centimeters. They are ideal as stereo or effect speakers and can be used as 3D speakers on the ceiling. Thanks to their bass reflex design with passive cone, they are able to reproduce deep bass cleanly and precisely – even without an external subwoofer. And with their universal bracket for wall and ceiling mounting, they are easy to install and can be aligned precisely to the listening position – for the best Canton sound in your living room or home theater in no time at all.
