POWER SUB 8 S2

Our smallest front-firing active subwoofer with down-firing passive cone is the Power Sub 8 S2. Two 219 mm power drivers provide impressive bass qualities in this compact subwoofer. It's the perfect partner for our GLE Series speakers, but as a universalist it can be combined with any other stereo and home theatre speakers. The active module delivers a very high peak power of 280 watts, which inspires the compact Power Sub 8 S2 to excellent dynamic performance. Also amazing is its enormous low bass, which, thanks to our „SC Technology“ and the „Room Compensation Circuit“, comes across clearly and precisely in any room without distortion.

TECHNICAL DATA

Type	Subwoofer	
Principle	Bass reflex with passive membrane	
Active driver radiation direction	Frontfire	
Radiation direction Resonator	Downfire
