NEW PRODUCT

IFA – 2015

DM 55

DM 100

DM Series

CANTON[®]
German loudspeaker tradition

The new DM Series

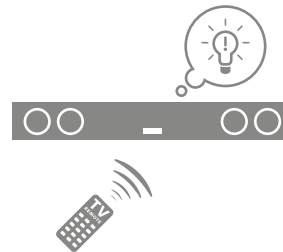

The DM front surround systems are perfect for positioning under flat screen televisions. With a 200 watt system output, virtual surround technology and high quality loudspeaker

High quality fittings

The solid HDF cabinet houses a modern, 200 watt digital amplifier with integrated 2-way loudspeaker system and down-fire subwoofer. This gives the DM system optimum speech intelligibility, impressive spatial presence and powerful bass tones.

fittings they are suitable for home cinema and music in equal measure. Simple to install, they only need a signal cable to connect to the flat screen device.

Simple operation

The DM system can be controlled with its own remote control or that of your television. All remote control functions of the DM system can be learned in just a few steps on the TV remote control unit. Two devices - one remote control.

Bluetooth® loudspeaker

Thanks to the Bluetooth® interface and easy-pairing function, the DM system also masters the world of smart phones and tablet PCs. As a high quality Bluetooth® loudspeaker it also ensures loss-free transmission using apt-X® technology.

Glass surface

Inspired by the world of exclusive furniture and fitted with an elegant glass surface, the new DM systems have an elegant, contemporary look and will form an eye-catching feature in any living room.

Connection options

Alongside the optical digital input that makes it easy to connect with the flat screen television, the DM system has a coaxial digital input and an analogue cinch input. If required an external subwoofer can be operated using the Sub-Out output.
